| Savings |  |  |  |  |
| Loans |  |  |  |  |
| Payday Loans |  |  |  |  |
| Overdraft |  |  |  |  |
| Mortgage |  |  |  |  |
| Credit Cards |  |  |  |  |
| Insurance |  |  |  |  |
| Pensions |  |  |  |  |

## Personal Finance Products - Possible Answers

Use the following headings to compare and contrast the listed financial products. Make notes in the spaces given.

|  | Tax free Vs Taxed | Short Term Vs Long Term | Cheap Vs Expensive | (Other Notes) |
| :---: | :---: | :---: | :---: | :---: |
| Savings | Taxed (expect ISA's) | Both | Low return, except stocks and shares which comes with risk. | Compare savings accounts, some current accounts, ISAs, bonds, stockmarket products etc. |
| Loans | Tax free (it's a cost and not a benefit) | Short term, 1-5 years | Expensive, typically 5-20\% | Consider alongside overdrafts. |
| Payday Loans | Tax free (it's a cost and not a benefit) | Very short term, less than 1 year | Very expensive, typically 501000\% | Avoid! |
| Overdraft | Tax free | Short - medium term | Relatively cheap so long as its arranged beforehand. (Student overdrafts are free) | Quick \& easy to arrange. Consider before loans, payday loans, credit cards. |
| Mortgage | Tax free (it's a cost and not a benefit) | Long term, 5-30 years | Cheap, typically 2-6\% | Compare types of mortgage |
| Credit Cards | Tax free (it's a cost and not a benefit) | Short term, 1 month+ | Expensive, 15-20\% | Compare with loans |
| Insurance | Tax free (it's a cost and not a benefit) | Most policies for 1 year | Risk vs loss if uninsured (if you can't afford to replace it, get insured) |  |
| Pensions | Tax free when paying in, taxed when paying out | Long term, lifetime | Cheap. Pension contributions are not taxable. |  |
